

## The Galapagos Islands on the Catamaran Millenium

The Millenium is the most elegant and comfortable catamaran cruise in Galapagos Islands. It has two hulls that make it a very stable vessel. The wide spacious cabins, living rooms and bathrooms lend to the feeling of elegance and comfort experienced by passengers. The power of the engines (800 HP) provide good performance and make the trips between islands go quickly. The atmosphere of a small group of 16 passengers, mixed with the features of a big vessel, results in an unforgettable journey.
