

Table 3. Nymphalid species recorded from lowland forest in Iwokrama around Kurupukari, central Guyana (58°50'W, 4°30'N). Specimens were collected in July/August 1992 (Gillman and Kent), January 1993 (Aspey), July/August 1995 (Ward), July/August 1996 (McDonough); July/August 1997 (Wright) and November 1998 to February 1999 (Martin and Weaver). Collections were all within 1-2 km of Kurupukari on the west bank of the river, except for the 98/99 collections which were made about 20 miles to the south-west of Kurupukari.
