

LUFUPA RIVER CAMP

KAFUE NATIONAL PARK - LUFUPA

Safari & Adventrue Co.

Lufupa River Camp lies at the confluence of the Kafue River and the Lufupa Channel, a tranquil setting overlooking these rivers. Exploring these sparkling, smooth-flowing waterways provides lively wildlife and birding encounters, from hippo to African Finfoot.

The camp features seven comfortable en-suite tents (two of which are family rooms) on the banks of the Kafue River offered on a bed-and-breakfast basis. There is also a campsite nearby. The vibrant social hub is the whimsically named Kafue River Café with a bar and restaurant; à la carte meals and drinks are served during the day and early evening. Habitats around Lufupa are home to a diverse wealth of game including a full suite of large predators and frequent leopard and lion sightings. At twilight hippo emerge from their deep-water channels to graze. The open water and secluded riverine fringe provides birding habitats for an array of water-loving species like White-backed Night-Heron.
