

# LUFUPA TENTED CAMP

## KAFUE NATIONAL PARK - LUFUPA

Safari & Adventure Co.

Lufupa Tented Camp is situated in the ultimate in riverine settings, near the confluence of the Lufupa and Kafue rivers – an area filled with floodplains, broad-leaved woodland, lush riverine vegetation and dambos (open grassy clearings). This intimate camp comprises nine en-suite Meru-style tented units each with a wooden deck on which to contemplate the broad river view. A relaxed central area, complete with a boma, fireplace, dining area and small plunge pool, lies on the edge of the Kafue River.

Morning and evening game drives, guided nature walks and boating offer access to the productive game viewing areas adjoining the Lufupa Channel. Leopard and lion sightings are good and elephant are often seen moving through the area. Puku, impala, kudu and Defassa waterbuck are common. Kafue's birdlife is widely acclaimed, with the Lufupa area sporting well over 400 species – including the likes of the sought-after Pel's Fishing-owl.
