

GREEN DESERT EXPEDITION

BOTSWANA

An Adventurer Exploration - Seven nights/Eight days

This magnificent Exploration contrasts the sporadic rains of the Kalahari Desert with the always-fertile islands and waterways of the Okavango. It takes place during the Kalahari's most productive season, when it receives low rains and wildlife migrates in large numbers into the desert valleys. This precious water creates a short yet incredibly prolific wildlife-viewing period with concentrations of desert species and their young in the ancient river valleys of Deception Valley. An all-day game drive (or two) in the reserve adds immeasurably to the sightings of this abundance. Then, in a stunning contrast, the vibrant water wonderland of Xigera in the Okavango Delta is explored.

BRIEF ITINERARY:

- Days 1:** Depart by road from Maun to Deception Valley Lodge
- Days 2 - 5:** Travel by road to Deception Valley, Central Kalahari Game Reserve
- Days 6 & 7:** Transfer by road to Maun and fly to Xigera Camp, Okavango Delta
- Days 8:** Fly to Maun

Please note: This exploration only takes place between December and April. The addition of a Linyanti and a Livingstone camp after Xigera is highly recommended as it rounds off the impressions and diversity of the country.
